WELCOME

BEGINNER / INTERMEDIATE
2-6 GUESTS PER GUIDE
MTB / E-MTB

Embark on a 6-day guided mountain biking adventure through the stunning Jeseníky Mountains in the Czech Republic — one of Eastern Europe's best-kept secrets. Ride world-class flow trails, explore lift-accessed bike park, and climb into wide-open alpine landscapes — all with the support of a local guide. Over six unforgettable days, you'll experience three distinct styles of terrain across two different locations, blending skill, progression, exploration, and pure mountain freedom together.

ARRIVAL DAY

DAY 1: ARRIVAL & WELCOME
DESTINATION: KOPRIVNA RESORT
RIDE: WARM-UP SPIN AROUND THE VILLAGE

Arrive at Ostrava Airport, where your guide will meet you for a 1.5-hour drive into the Jeseníky Mountains. After check-in to your hotel, we'll gather for lunch and a short welcome meeting — a chance to officially meet your fellow riders, review the week ahead, and get your bikes set up. If you're renting, you'll be fitted with a full-suspension model (170 mm front / 160 mm rear). Later in the afternoon, we'll head out for a short, easy ride to stretch your legs and shake off travel stiffness before dinner.

MONDAY

DAY 2: BIKEPARK - EXPLORE & LEARN
DESTINATION: BIKEPARK KOPRIVNA
RIDE: WORLD CLASS LIFT-ACCESSED TRAILS

Time to hit the park! Koprivna is one of the best bike parks in Eastern Europe, offering a full mix of flow trails, berms, and jumps ranging from beginner-friendly tables to pro-level air lines. The morning is all about exploration and finding your rhythm on the trails. After lunch, your guide will focus on refining your technique with personalized tips to help you gain confidence, control, and speed.

TUESDAY

DAY 3: BIKEPARK - RIDE & IMPROVE
DESTINATION: BIKEPARK KOPRIVNA
RIDE: WORLD CLASS LIFT-ACCESSED TRAILS

We're back on the lifts for another round of fun and progression — more flow, more air, more style. After lunch, we'll keep things light and ride simply for the joy of it. Your guide will capture photos and short videos on your favorite sections — the perfect souvenir from your time in the park. Later in the afternoon, we'll return our enduro bikes and switch to full-suspension e-bikes for the next stage of the journey.

WEDNESDAY

DAY 4: E-BIKE ADVENTURE
DESTINATION: PRADEŠ SUMMIT (1491M)
RIDE: LONG PANORAMIC MOUNTAIN RIDE

Today we leave the lifts behind and dive into the mountains. We'll ride through dense pine forests carpeted with moss and blueberries, following winding forest roads and occasional singletrack detours. Our highlight: reaching Praděd, the region's highest peak, with 360° views stretching into Poland and Slovakia. After lunch at the summit, we'll descend through meadows and forest trails back to our hotel. Today is a great opportunity for a massage!

THURSDAY

DAY 5: E-BIKE HIDDEN GEMS
DESTINATION: JESENÍKY FOOTHILLS
RIDE: ENDURO & DOWNHILL LOCAL TRAILS

Our e-bike adventure continues on a network of local enduro and downhill trails — a playground of leafy descents, rooty switchbacks, and mossy pine sections that keep you alert and smiling. We'll stop for lunch at a favorite local restaurant, get in a couple more rides afterward, and head back to the hotel for a cold beer and a casual chat about the next day's transfer to Rychleby Trails — one of the most unique riding destinations in Czech Republic. Let's call it "Czech Squamish".

FRIDAY

DAY 6: CZECH SQUAMISH
DESTINATION: RYCHLEBY TRAILS
RIDE: TECHNICAL MOUNTAIN GRANITE TRAILS

After breakfast, we'll leave the Koprivna Hotel and head out for a short drive to Rychleby Trails where we check into the cozy FajnTajm Chalet. Once bikes are tuned, we'll take a short warm-up ride before lunch. The afternoon is dedicated to Rychleby's iconic hand-built granite trails — raw, rocky, and deeply rewarding. No lifts, no shuttles, no e-assist — just pure mountain biking in its truest form.

SATURDAY

DAY 7: FINAL RIDES & DINNER
DESTINATION: RYCHLEBY TRAILS
RIDE: TECHNICAL MOUNTAINS GRANITE TRAILS

Our final ride day! We'll revisit your favorite sections or explore a few hidden gems you haven't tried yet. After lunch, we'll take our last photos and soak in the mountain air one more time. In the evening, we'll gather for our last dinner and celebrate a week of great rides, great company, and new friendships on the trail.

DEPARTURE DAY

DAY 8: DEPARTURE DAY
DESTINATION: OSTRAVA AIRPORT
RIDE: EARLY TRANSFER AT 5:30 A.M.

Wake up early for your final morning in the Rychleby Trails. After a quick breakfast, we'll pack up and depart at 5:30 a.m. for the two-hour journey back to the airport. Your guide will help with check-out and luggage to ensure a smooth trip home. Thank you for joining us — we hope to ride together again on another adventure!

STRAIGHT TALK

The Czech Republic is a welcoming and fascinating country in ongoing process of exciting change. While hospitality and service weren't always a focus during the communist era, they've been improving ever since. Locals may seem a bit reserved at first, but you'll soon notice a genuine warmth beneath the surface. Traveling here with an open mind and a sense of humor goes a long way — and your local guide will be there to bridge cultures, smooth out the edges, and make sure you enjoy every moment of your holiday. As you explore further, you'll find that Czech hospitality often speaks through action.

What is
included?

LODGING

5 nights – Koprivna Hotel, Mala Moravka

Tucked into the quiet mountain village of Mala Moravka, the Koprivna Hotel blends comfort with a relaxed and welcoming vibe. Expect modern mountain style — warm wood, natural stone, and plenty of charm. After an active day on the trails, unwind in the spa or stretch out in the sauna before dinner at the hotel's restaurant. Cozy rooms (one person per room) will offer everything you need for a restful night. Breakfast is included each morning.

2 nights – FajnTajm Chalet, Rychleby Trails (or similar type)

Your final nights bring a change of pace — a private chalet stay in the heart of the Rychleby Trails area. The FajnTajm Airbnb combines the feel of a mountain lodge with all the comforts of home: wood-and-stone design, a private sauna, full kitchen, and an outdoor grill for those easygoing evenings together. Cozy, communal, and full of character — it's the perfect place to wrap up your adventure. Breakfast is included.

What is
included?

PRIVATE GUIDE

Meet your guide Filip: a local who knows every twist, turn, and hidden line in the Jeseniky Mountains. Certified in mountain biking and experienced guiding guests around the world, he brings global knowledge and local insight to every ride. Whether you want to refine your technique, explore the region's climate and geography, or hear stories from its fascinating history, your guide is there every step of the way — riding alongside you, pointing out hidden gems, and making each day on and off the trails unforgettable.

AIRPORT TRANSFER

Begin your adventure with a private shuttle from the airport. The 2-hour journey takes you in a comfortable 8-seater van with bike holders, keeping your gear safe and secure. We provide water and an energy bar so you can relax, enjoy the scenic ride, and arrive ready to hit the trails. The shuttle also handles your return trip to the airport.

SNACKS

Each morning, we'll meet outside your accommodation to pack up some trail fuel for the day ahead. A well-stocked snack table will be waiting — filled with a mix of nutritious options like nuts, fresh fruit, and energy bars. Choose what you like, fill your pockets, and you'll be set to keep your energy up between rides.

What is
included?

MEALS AND BEVERAGES

All meals are included throughout the trip, starting each day with a buffet breakfast at the hotel before we roll out. Lunches are enjoyed at our favorite local restaurants, giving you a taste of regional mountain cuisine—often including the thick, rich soups Eastern Europe is known for, served with bread and, if you wish, a small local beer—always with lighter options like salads or full meals available. Evenings bring a curated mix of experiences: several nights feature a three-course dinner at the hotel restaurant, complemented by two special nights when a private chef prepares an exclusive dinner just for our group.

LIFT PASS

The modern high-speed chairlift gets you back to the top in just eight minutes — plenty of time to catch your breath and swap stories before the next run. Each chair seats up to six riders and carries three bikes on custom-designed hooks — a clever system patented right there in Koprivna Bikepark to keep everything secure and efficient.

What is **NOT**
included?

RENTAL BIKES

If you choose to rent a bike, you'll be riding top-quality gear designed for serious mountain terrain.

Enduro Bike – for the bike park and beyond

For the lift-accessed trails and technical descents, you'll be equipped with a full-suspension enduro bike — something along the lines of a Norco Sight A2, featuring 170 mm of travel up front and 160 mm in the rear. Built for control, confidence, and flow, it's the perfect partner for the bike park and for the rugged singletrack of Rychleby Trails.

E-MTB – full-suspension electric mountain bike

Prefer a little extra boost on the climbs? Our full-suspension electric mountain bikes deliver smooth, consistent power with a range of about 60 km — more than enough for a full day of adventure. With 160 mm of front travel and 150 mm at the rear, these bikes handle up to 2,000 metres of elevation gain and descent with ease, keeping the ride fast, fun, and comfortable no matter what the trail brings.

ALCOHOL

Alcoholic beverages are not included, but your guide will be happy to point you toward the best local spots to raise a glass after a day on the trails. Czech beer is world-famous for a reason — crisp, refreshing, and the perfect post-ride reward. For something stronger (and a true taste of local tradition), try a shot of slivovice, a potent fruit-based spirit beloved throughout the region.

WEATHER, WHAT TO PACK, INSURANCE

The Jeseníky Mountains enjoy a generally mild climate. From June through September, daytime temperatures typically range from 20–25°C, with cooler evenings around 10–15°C. Expect a mix of sunshine and occasional rain showers — part of the region's fresh alpine charm. We recommend bringing a small backpack for your rides to carry essentials such as water, snacks, and an extra layer. A pack with a rain cover is ideal. You're welcome to bring your own helmet, though we can provide one if needed. Bike gloves are optional, based on your preference. For clothing, think in layers: cycling shorts and trousers, an extra T-shirt, a lightweight insulated jacket, a waterproof shell, and sunglasses will cover most conditions. Mountain weather can be unpredictable, and some ride days may be adjusted to make the most of local conditions. Finally, we highly recommend travel insurance for peace of mind. Many riders choose Alpenverein, a trusted provider offering solid coverage for mountain activities.
